

SAHANA MADHAVAN

Product & Project Analyst | SaaS | Cross-Functional Delivery

✉ sahanamadhavan2608@gmail.com | 📞 +1 (945) 243-7395 | 🔗 LinkedIn | 🌐 Portfolio

Professional Summary

Early career Product & Project Analyst with experience managing cross-functional delivery across enterprise accounts in an AI-enabled SaaS environment. Skilled at translating customer insights into product requirements, coordinating implementations end-to-end, and driving operational efficiency. Systems Engineering background provides a structured, analytical approach to problem-solving and stakeholder alignment.

Professional Experience

Product & Customer Success Associate | *ECSSite Inc. — Telecom SaaS Startup* Aug 2025 – Present

- Managed end-to-end client implementations of ECSafety, an AI-powered compliance platform, across 6–10 enterprise accounts, overseeing delivery timelines, stakeholder alignment, and deployment milestones.
- Partnered with engineering and cross-functional stakeholders using JIRA to scope, prioritize, and deliver product features, reducing feature turnaround time by 25%.
- Collaborated with the team to design and deploy 50+ OSHA-compliant safety workflows across enterprise client sites, standardizing field operations and reducing process inconsistencies.
- Translated enterprise client feedback into structured product requirements, driving enhancements that improved user engagement by 15%.
- Facilitated weekly client syncs and product demos, proactively managing expectations and ensuring on-scope, on-time delivery.
- Drove a 20% increase in platform adoption across the client portfolio through structured onboarding and targeted enablement activities.

Global Network Services Intern | *Pitney Bowes* Jun 2024 – Aug 2024

- Coordinated sprint planning and execution workflows across a cross-functional team of 10+, identifying and resolving blockers to improve on-time delivery.
- Built sprint velocity forecasting models and delivery timeline projections, improving planning accuracy by 18% over two sprint cycles.
- Developed KPI dashboards in Excel to track team performance metrics and delivery predictability, improving reporting visibility by 15%.
- Standardized Confluence documentation across 3+ project workstreams, reducing planning delays and improving knowledge accessibility.

Project Support Intern | *Ford Business Solutions* Jun 2022 – Sep 2022

- Collaborated with the team to support business process improvement initiatives by analyzing existing workflows and identifying inefficiencies across operational teams.
- Assisted in building automated reporting dashboards to track operational metrics, improving reporting accuracy by 25% and enabling faster decision-making.
- Aligned cross-functional stakeholder requirements with business objectives to ensure effective and timely solution delivery.

Education
